# REPORT ON THE ADMINISTRATION

OF

# THE STATIONERY DEPARTMENT

FOR THE OFFICIAL YEAR

## 1880-81.

Calcutta:
PRINTED AT THE BENGAL SECRETARIAT PRESS.
1881.

*No.* 845*B.*

FROM A. FORBES, ESQ.,

*Offg. Secretary to the Board of Revenue, L.P.,*

TO THE SECRETARY TO THE GOVERNMENT OF BENGAL,

FINANCIAL DEPARTMENT.

*Dated Calcutta, the 4th November* 1881.

STATIONERY.

SIR,

I AM directed by the Board of Revenue to submit the following report on the working of the Stationery Department during 1880-81, so far as the transactions affect the Government of Bengal, together with the statements noted below :—

R. L. MANGLES, ESQ., V.C.

A.—Comparative statement showing the value of stationery issued in the years 1879-80 and 1880-81.

B.—Comparative statement of the issues of stationery, contingencies, local purchases, &c., for the year 1880-81.

C.—Statement showing the total quantity and cost of Bally blotting, brown cartridge, badami and yellow paper, and note-size envelopes issued in 1880-81, in place of English paper and envelopes of the same description, and the saving effected.

D.—Comparative statement showing the increase and decrease of the total value (not being less than Rs. 100 per annum) of stationery supplied to each office under the Government of Bengal.

2. The stationery stores for the year under review were obtained under the system of local contracts, as reported to Government in Board's No. 490B, dated 25th June 1880, and the advantages of the system were fully explained in Board's No. 494B, dated 18th June 1881. It is unnecessary to make any further remarks on the subject here, but it should be mentioned that the Superintendent informs the Board that the statement included in paragraph 5 of the last-mentioned letter, in which the contracts made for 1880-81 were shown to amount to Rs. 6,15,766-4-3 was incorrect, the value of the "printing papers" supplied by the contractors having been omitted by an oversight in his office. Mr. Ryland has now submitted a revised statement, which is given in the margin, from which it will be seen that the total value of the contracts amounted to Rs. 10,64,562-3-4, as was shown in the statement forwarded with the first of the Board's letters referred to above.

*List of contracts for* 1880-81.

| NAMES OF CONTRACTORS. | Contract value of the stores supplied. | Address. |
|---|---|---|
| | Rs. A. P. | |
| Messrs. John Dickinson & Co. ... | 5,11,770 5 3 | London. |
| " T. H. Saunders & Co. ... | 1,60,796 14 4 | Ditto. |
| William Watson ... ... | 1,59,703 4 0 | Ditto. |
| Messrs. Spicer Brothers ... | 91,662 2 5 | Ditto. |
| Archibald Winterbottom ... ... | 33,987 8 0 | Manchester. |
| Messrs. A. J. Parker & Co. ... | 29,551 11 10 | Calcutta. |
| " T. E. Thomson & Co. ... | 22,371 8 8 | Ditto. |
| " George Henderson & Co. | 18,794 15 4 | Ditto. |
| " James Spicer & Sons ... | 15,485 0 4 | London. |
| " Grosvenor Chater ... | 8,388 11 2 | Ditto. |
| " Millington & Hutton ... | 5,650 0 0 | Ditto. |
| D. M. Traill ... ... | 3,470 4 8 | Calcutta. |
| Messrs. Wiggins Teape & Co. ... | 2,857 13 4 | London. |
| Amrito Lall Roy ... ... | 72 0 0 | Calcutta. |
| Total ... | 10,64,562 3 4 | |

3. Tenders for the supply of stationery for the year under review were invited by public advertisement in April 1879, and were received in reply from 23 well-known firms, ten of which belonged to London, eleven to Calcutta, one to Glasgow, and one to Manchester. The tenders were opened on the 1st July 1879, and after a careful comparison in the Superintendent's office of the samples which accompanied them, those which seemed best fitted to meet the requirements of the different officers of Government were selected and set aside for the inspection and final approval of the Board. An extensive choice was presented of the different articles required, the samples examined

numbering as many as 3,639. The names of the competing firms, which include several of the foremost manufacturers in England, are a sufficient guarantee for the character of the goods supplied, and the system had the advantage of enabling the Board to institute a comparison on the spot between European goods and the manufactures of this country, and to substitute the latter for the former whenever it appeared that this could be profitably done. A considerable saving was, by this means, made by the larger substitution of Bally paper, of various descriptions, in place of more expensive European paper, than had ever been previously effected.

4. *Statement A.*—This statement exhibits the total quantity and value of each article of stationery issued from the Calcutta Store to offices in Bengal, as well as to the Government of India and other provinces.

According to this statement there was a net increase of Rs. 2,03,948-4-1 in the value of stationery issued in 1880-81, as compared with the issues of 1879-80. In paragraph 3 of his report, the Superintendent explains the system of valuation prescribed by the Comptroller-General, by which the charges shown in this statement against each year have been arrived at. Mr. Ryland states that "the rates for 1879-80 were based upon the invoice cost of stores received from the India office, reckoned at two shillings to the rupee, *plus* ten per cent. for incidental charges, while the prices for 1880-81 represent the actual prices paid in Indian money, which necessarily includes the difference of exchange, *plus* 5 per cent. for charges." Allowing for the rate of exchange and equalizing the incidental charges, the Superintendent estimates the actual increase at Rs. 2,458 only, as shown in the following abstract:—

| 1 | 2 | 3 | 4 | 5 | 6 | 7 |
|---|---|---|---|---|---|---|
| | Value of issues for 1879-80. | Add 18 per cent. | Total. | Value of issues for 1880-81. | Increase compared with the amounts in columns 4 and 5. | Decrease compared with the amounts in columns 4 and 5. |

The orders of the Comptroller-General to which Mr. Ryland refers are contained in that officer's No. 248A, dated 25th February 1874, and are extracted in the margin.

In reply to a reference by the Board, the Superintendent has admitted that in making the above comparison, he was in error in having assumed that the charges on supplies purchased at home through the India office and on those obtained under the contract system, should be equalized, and it is evident that a calculation based on this supposition cannot be correct. The Board have ascertained that the charges from which the figures in column 2 of the above statement have been derived by the addition of ten per cent. do not include the cost of freight, packing,

6. I have said in the preceding column that an average rate should be fixed for each year according to which supplies should be charged. This is not done at present, supplies being valued with reference to their actual cost. The present system, however, is inconvenient, and the accounts would be much simplified if an average rate were fixed in the beginning of each year based upon the actual cost during the preceding twelve months. The actual cost now is calculated by taking the price of the article *plus* the freight shown in the invoice, but this method is incorrect, as the invoice shows only one-third of the freight, the remainder being payable in India; moreover, there is much labour in apportioning the freight charged to each article, and it would be a better plan if in future a fixed percentage were added to the price on account of freight with an additional 5 per cent. for charges; a similar 5 per cent. being added to the price of local purchases. According to the registers of this office the price and freight of stationery imported during the years 1870-71 to 1872-73 have been, as marginally noted giving an average freight charge of 2·36 per cent, which I propose to raise to 5 per cent. in order to allow for depreciation, &c. In other words I propose to add 10 per cent. to the cost of stationery received from England, and 5 per cent. to that purchased locally.

| | Rs. |
|---|---|
| Cost of stationery ... | 25,58,726 |
| Freight ... ... | 60,448 |

&c., in respect of the stores procured through the Secretary of State, and the expenses incurred on account of such charges must therefore be understood to be met from the additional allowance of 10 per cent. It is, however, observed that no charges are incurred in this country in respect of articles obtained under the contract system, which are not also incurred in the case of stores obtained through the India Office, and the difference of 5 per cent. prescribed by the Comptroller-General should therefore not only be allowed, but is even insufficient to cover the charges referred to, which, in the case of stores obtained on the contract system, are included in the prices paid for the goods on delivery in Calcutta.

5. In making the comparison, therefore, the Superintendent should have added at least the full difference arising from loss of exchange to the cost of the stores issued in 1879-80—viz. 23 instead of 18 per cent.—and if this be done, a decrease in the value of the issues in 1880-81, amounting to Rs. 53,511, as compared with the value of the issues in 1879-80, will be apparent. It is observed that the heads under which an increase or decrease occurred will be the same under this view of the case as they are in Mr. Ryland's statement, although the increase will be less and the decrease greater by 5 per cent. than in that statement. The explanations offered by the Superintendent of the increases and decreases will not therefore be materially affected, and they may be recapitulated as follows:—

(1.) The decrease under the head of "Drawing-paper" is accounted for by smaller issues from store.

(2.) The decrease under the head of "Writing-Paper" is also due generally to smaller issues, although under certain sub-heads there was an increase in the quantities issued.

(3.) The decrease under the head of printing-paper is owing to a decrease of 1,908 reams in consumption, as well as to the lower prices which prevailed for the whole of this class of paper under the contract system.

(4.) Under the head of "Coloured Printing-paper" there was a reduction in consumption of 2,624 reams.

(5.) The increase under the head of "Other papers" is due to increased consumption of 2,316 reams of brown paper, caused chiefly by the demands of the Superintendent of the Postal Press, Aligurh, and of the Census Department.

(6.) The increase under the head of "Drawing materials" is owing to the increased issues of tracing cloth to State Railway offices and to the supply of mapping cloth to the Survey Department.

(7.) The decrease under writing materials is not explained.

(8.) The increase under the head of "Book-binding materials" is attributable to the increased issue of mill-boards and leather to the Superintendents of Government Printing, Bengal and India, for binding books of forms and accounts which are largely used for the State Railways and other departments. A considerable quantity of binding-cloth was also used for the Census Department.

(9.) Under the head of "Bound Books," the issues show a decrease. This is entirely owing to the more extensive use of country-bound in place of the expensive English-bound books, of which 3,991 fewer were issued than during the preceding year.

(10.) The decrease under the head of "Miscellaneous articles" may be ascribed to greater cheapness in many of the items, as candles, English envelopes, &c., and to a smaller demand for some of the more fanciful and expensive articles in the principal offices. There was moreover no issue of salt-boat notes, and bonded salt forms, which are now obtained from the Secretary of State.

(11.) The consumption of "Bally Badami paper," irrespective of the extraordinary demand for the census work, amounted to 28,908 reams in 1880-81 against 14,381 reams in 1879-80, and the value shows an increase of Rs. 45,894. For the census alone 17,674 reams were consumed, at an additional cost of Rs. 53,995, making the total increase Rs. 99,889.*

* This is the net increase. The increase shown in the above abstract to the extent of Rs. 1,09,418 includes 5 per cent. on account of charges.

(12.) Under the head of "Water-marked paper" there was an increase in the consumption of the water-marked paper used with court-fee stamps to the extent of 357 reams, while there was also a smaller expenditure in the water-marked paper used for bills of exchange and promissory notes, the preparation of stamped paper for hoondies having been curtailed in anticipation of the receipt of supplies of impressed stamps of this kind from England.

(13.) The expenditure of arsenicated paper prepared at the Cuttack Jail, and which is used for the fly-leaves of judicial records, was in the year under report less by Rs. 139 than in the previous year.

6. The following abstract shows the value of stationery used by the several Government presses during the last two years. It is observed that to arrive at a correct comparison the difference of exchange at 23 per cent. should be added to the value of the issues in 1879-80 :—

| Governments. | Issues in 1879-80. | Issues in 1880-81. |
|---|---|---|
| | Rs. | Rs. |
| India Printing ... ... ... | 2,79,229 | 3,51,038 |
| Bengal „ ... ... ... | 3,13,145 | 3,97,107 |
| North-Western Provinces and Oudh Printing ... ... ... | 92,125 | 47,126 |
| Central Provinces Printing ... ... | 4,275 | 4,962 |
| Assam Printing ... ... ... | 1,465 | 1,795 |
| Punjab „ ... ... ... | 10,478 | 33,896 |
| British Burma Printing ... ... | 3,018 | 8,115 |
| Postal Press, Aligurh ... ... | 23,518 | 60,916 |
| | 7,27,253 | 9,04,955 |

The Superintendent of Stationery has found on enquiry that the falling off in the value of the stationery used during 1880-81, by the Superintendent of the North-Western Provinces and Oudh Press, was due to his having purchased largely from home dealers direct, and submits that if this course be still pursued, it will much derange the operations of his office, which is expected to provide in the general indent for the requirements of all the provinces, except Bombay and Madras.

7. *Statement B.*—This statement shows that the value of the total issues of stationery amounted in 1880-81 to Rs. 15,08,261-6-7, against Rs. 13,04,313-2-6 in 1879-80, showing an increase of Rs. 2,03,948-4-1. This increase, as already pointed out, is only apparent. The charges for contingencies were Rs. 26,439-10-7, or Rs. 4,434 less than those of the previous year. Of this decrease Rs. 3,873 occurred in the item of cooly hire alone, owing partly to more favourable contract rates for labour, and partly to less shifting of the packages, which had been removed in the previous year from the new Opium Godowns, where they were formerly stored.

8. The local purchases exceeded those of the previous year by Rs. 9,05,232-7-3. This increase consists of Rs. 83,161-2-11 under the head of "Country articles," Rs. 20,082-8-3 under the head of "Local purchases of English stores," and Rs. 8,01,988-9-11 under the head of "English stores procured under contract." The large excess in the country articles proceeds from the greater quantities of Bally paper which were purchased during the year, while the increase in local purchases of European stores is due chiefly to the several special demands from the Lahore Press, Presidency Press, Aligurh Press, Telegraph Department, and the offices of the Surveyor General and the Superintendent, Survey of India, for which no provision had been made, and additional tenders had to be called for. It is observed that the cost of European articles procured under the contract system (Rs. 9,89,218) does not agree with the cost (Rs. 10,64,562) as shown in the statement in paragraph 2 above, as the former figures relate only to such supplies as were both *issued and paid for* during the year of report. It will be seen that a further sum of Rs. 1,87,229 was paid in 1879-80, on account of articles which were supplied for use during 1880-81. The total amount paid in respect of the contracts for the year under report will thus exceed the amount shown in paragraph 2. The explanation offered by

the Superintendent is that the excess expenditure includes the price of certain stores procured from the contractors in excess of their engagements. In the one case the figures represent the estimated, in the other the actual expenditure.

9. The sale of waste-paper and other useless articles shows an increase of Rs. 2,689, resulting from the improved arrangements made for securing supervision over the disposal of unserviceable stores; while the sum of Rs. 27,043 was realized from officers not entitled to free supplies, being Rs. 1,772 more than in the previous year.

10. The cost of the Superintendent's establishment amounted to Rs. 34,331 against Rs. 34,006 of the previous year, showing an increase of Rs. 325, which is, however, scarcely commensurate with the increased business of the department.

11. *Statement C.*—This statement shows that the extended use of Bally badami paper represents a saving of Rs. 54,668, as compared with the price of an equal quantity of English printing-paper of which it has taken the place; and that together with brown paper, blotting paper, yellow paper, and envelopes, which are also supplied by the Bally mills to some extent, the whole saving equals Rs. 59,617. The Superintendent of Stationery reports that every endeavour is being made to introduce the Bally paper where it is suitable for form printing, and that the Bally Mills Company are taking measures, by means of new machinery, to improve the quality of the paper, which will tend to a still further utilization of the country manufacture.

12. The following abstract shows the total value of stationery consumed in Bengal, and in other provinces during the year under report and the previous year.

| Government. | Value of stationery issued in 1879-80. | | | Value of stationery issued in 1880-81. | | |
|---|---|---|---|---|---|---|
| PROVINCIAL SERVICES. | Rs. | A. | P. | Rs. | A. | P. |
| Bengal ... ... ... | 4,07,022 | 0 | 0 | 4,95,827 | 9 | 0 |
| North-Western Provinces and Oudh | 1,34,444 | 8 | 0 | 91,885 | 12 | 0 |
| Punjab ... ... ... | 50,759 | 8 | 0 | 66,840 | 5 | 0 |
| Assam ... ... ... | 12,680 | 11 | 0 | 14,061 | 4 | 0 |
| British Burmah ... ... | 21,525 | 4 | 0 | 31,824 | 12 | 0 |
| Central Provinces ... ... | 13,238 | 13 | 0 | 15,538 | 9 | 0 |
| | 6,39,670 | 12 | 0 | 7,15,978 | 3 | 0 |
| IMPERIAL SERVICES. | | | | | | |
| Including the issue of stationery to Central India, India, Imperial State Railways, Telegraph Department, Postal Department, Military, Guaranteed Railways, Mint, Bombay and Madras, &c. ... ... | 5,25,753 | 7 | 0 | 6,25,479 | 2 | 0 |

The total figures for the two years under comparison are Rs. 11,65,424 and Rs. 13,41,457 respectively. The difference between these figures and those contained in Statement A (Rs. 13,04,313 and Rs. 15,08,261 respectively) has been explained, on a reference to the Superintendent, by the fact that the former figures do not include issues of water-marked paper, salt boat notes, and sales on payment, which are, however, included in the gross results shown in statement A.

13. *Statement D.*—It will be seen that the total expenditure for stationery within the Bengal Presidency amounted to Rs. 4,95,827 in 1880-81, against Rs. 4,07,022 in 1879-80, shewing an excess of Rs. 88,805. This excess, apart from the effect of exchange upon the prices, is, the Superintendent of Stationery observes, to a great extent due to the requirements for the census in the shape of printed forms, in number no less than about 11 millions, issued from the Presidency Jail Press, and appearing against the Superintedent of Government Printing to the value of Rs. 48,729. Regarding the results arrived at on contrasting the charges exhibited during the past

year in the several offices of each class, the Superintendent of Stationery remarks as follows:—

"*Law and Justice. District Judges.*—The smallest consumption took place in Beerbhoom being Rs. 105-8, though the average of Rs. 11-11 is much above the lowest average, Rs. 4-12, in the 24-Pergunnahs. Midnapore, Nuddea, Hooghly, Moorshedabad, Mymensingh, Noakholly and Tipperah, not only show a large consumption, but give a very high average per man, and much higher than that of the previous year. The Judicial Commissioner of Chota Nagpore, Ranchi, received supplies of two annual indents during 1880-81, and therefore exhibits a very extraordinary average, Rs. 69-4.

"*Magistrates.*—The lowest consumption was in Maldah, Rs. 126, with an average of Rs. 10-8, and the highest in 24-Pergunnahs, Rs. 982, averaging Rs. 31. Burdwan and Gya show a very high average of Rs. 24-2, and Rs. 22-8, respectively; while Tipperah, Jessore, Bograh, Pooree, Furreedpore, Dacca, Rungpore, Shahabad, and Pubna all show an average of above Rs. 10, with comparatively large amounts.

"The Chief Presidency Magistrate, and the Presidency Magistrate, Northern Division, both show a considerably higher amount and average than that of the previous year, and this increase is owing partly to the supply of English-bound books which were not required during the previous year.

"*Administration. Accountant-General.*—The Accountant-General, Bengal, drew more stationery during the year, on account of some special work for which extraordinary indents had to be complied with.

"*Commissioners.*—As during the previous year the smallest consumption took place in the Chota Nagpore Division, to the extent of Rs. 230-4, though the average, Rs. 20-15, is comparatively high. Burdwan and Presidency Divisions are the lowest, with an average of Rs. 13-2, and Rs. 13-6 respectively.

"*Registration.*—In this department the averages range, from Rs. 3-6 to Rs. 28-15; the lowest expenditure Rs. 101-12 was in Rungpore, with an average of Rs. 4-10. In Chittagong with more than twice the amount the average expenditure was Rs. 3-6, the lowest in the department.

"*Revenue Collectors.*—The amounts shown for Sarun, Bancoorah, 24-Pergunnahs, and Chittagong are considerably in excess of supplies of the previous year, as a very large portion of their indents received during the previous year was complied with during the year under report. The Collector of Nuddea shows the lowest average Rs. 3, while the Collector of Sarun has the highest average of Rs. 19-5. Pubna, Durbhangah, Tirhoot, Tipperah, Monghyr, Shahabad, Rajshahye, Purneah, Mymensing, Bancoorah, Bhagulpore, Pooree, Rungpore, and the Calcutta Stamp Revenue Collector show an average of above Rs. 10.

"A large portion of the stationery required at the close of 1879-80 by the Deputy Commissioner of Manbhoom was supplied to him during the year under report, causing thereby the increased consumption of Rs. 1,155. Julpigoree also was similarly supplied. The Settlement Officer, Khoordah, obtained a large supply of drawing materials during the year under report to enable him to complete the settlement work he had in hand.

"*Forest.*—The amount, Rs. 26-12, shown as consumed by the Conservator of Forests, Chittagong, for 1879-80, is for a supply of certain articles issued to him on an indent received in the previous year. In fact, no annual indent was supplied to him in 1879-80, hence the apparent increase during the year under report.

"*Minor.*—The amount of expenditure, Rs. 851-8, in the office of the Superintendent of Botanical Gardens, Howrah, is much in excess of the previous year's amount. The increased consumption was owing to the supply of 19 reams of cartridge paper for mounting herbarium specimens, and 120 pieces of wax-cloth for packing cinchona febrifuge.

"*Public Works Department. Ordinary Works.*—The Executive Engineer, 3rd Calcutta Division, shows the lowest average of Rs. 5-3, and the Executive Engineer, Budh-Gya Temple, the highest, Rs. 56-12. The latter office is newly created, and has, therefore, drawn more than others. The amounts are variable, depending, no doubt, upon the number and extent of works in progress.

"The same remarks apply to the irrigation works.

"*Stationery and Printing.*—The total issues to the Superintendent of Government Printing, Bengal, exclusive of the census demands, amounted to Rs. 3,13,145 during the previous year. This increment, I may say, almost entirely arises from, and is an illustration of the growing demands for forms in loose sheets and in books for the State Railways, and under recent enactments relating to the road-cess and realization of public demands, which had no parallel in former times. All which adds to the work of this department both in its form store, and stationery branches.

"*Provincial State Railway.*—The largest consumption was in the office of the Examiner of Accounts, Northern Bengal State Railway, Saidpore, being Rs. 2,625, against Rs. 422 for the previous year. As no establishment was mentioned in his indent, no average could be struck, but the increase was owing to the inclusion in his indent of the requirements of the Traffic and Locomotive Superintendents of the Railway Division. The Examiner of Accounts, Tirhoot, Patna, Gya, and Nalhati State Railway, Durbhunga, shows an expenditure of Rs. 489 against Rs. 157 for the previous year, although there was some increase of establishment. The average expenditure rose from Rs. 4-10 to Rs. 9-10."

14. Agreeably to the call made last year by the Board on the Superintendent of Stationery (*vide* paragraph 16 of their Annual Report for 1879-80), to require and submit, from the officers concerned, the necessary explanations with regard to the striking differences which appeared on a comparison of the expenditure of stationery in different offices of the same class during the year 1879-80, the Superintendent of Stationery appends to the accompanying statements a compiled summary of the replies received by him on the subject, a copy of which is also annexed to this report for the information of Government.

On this subject the Superintendent remarks generally as follows :—

"Many of the officers dispute the accuracy of the number of officials using stationery in their own or other offices according to the comparative scale. These numbers are, however, extracted from the respective indents submitted by the officers themselves, which therefore should be more correctly drawn up if in error; others allege a larger amount of work even with smaller establishments, and the performance of additional duties, of which I am not in a position to pass an opinion. The Judge of Nuddea, one of the most expensive districts, gives as one of the reasons that the quality of the stationery supplied is bad, which is rather a curious excuse for its inordinate use.

"But the most probable and important explanation elicited from the admissions of several officers seems to be that English stationery is more or less extensively consumed by the Vernacular establishments—a practice which is directly opposed to paragraph 8 of the Stationery Rules, and is very likely to lead to peculation and abuse, a separate fixed allowance being granted for vernacular work in mofussil offices, out of which country-paper, country-ink, and country-pens, and a variety of other articles noted in the margin, are directed to be provided. As Bengali paper and ink and reed-pens are almost things of the past, and some of the other articles are supplied from this office for the English Departments, if the promiscuous use of English stationery by the writers and mohurirs be permitted, there can be little possibility of check; and it becomes a question for consideration whether the allowances should not be revised so as to be applied only to the purchase of articles not supplied from this office. In place of country-paper, Bally paper might be as cheaply used, and would save much waste of the English paper supplied for drafts, &c., which now finds its way into the Bengali sherista."

15. The Board have ascertained from the Superintendent that the values of the issues in 1879-80 to the different officers shown in statement D, represent the invoice values of the supplies *plus* 10 per cent. as explained in paragraph 4 above, while the value of the issues in 1880-81 has been obtained by adding 5 per cent. to the actual prices paid to the contractors, and that the former values do not include any allowance on account of loss by exchange. In considering the relative expenditure by each officer for each year, this fact must be remembered, and an addition of some 23 per cent. must be made to his expenditure in 1879-80 to arrive at a fair comparison. If this is done, the value of the total issues in 1879-80 will be approximately Rs. 5,00,637, instead of Rs. 4,07,022, as against Rs. 4,95,827 in 1880-81, and the increases shown against many officers in the list will disappear. The Superintendent will be directed to prepare a revised statement on the above principle, and to again draw the attention of the officers in whose offices there appears to be a disproportionate consumption of stationery to the subject, as the replies hitherto received from the various officers addressed are not of much value, and it does not appear that the Superintendent has received any explanation from a number of officers in whose offices a marked increase in consumption is shown during the past year;* while on the other hand, explanations seem in some cases to have been called for too indiscriminately and where they were not much needed.

**E.g.*, the Judge of Midnapore.
Ditto Moorshedabad.
Ditto Tipperah.
Ditto Small Cause Court, Calcutta.
The Registrar of the High Court.
The Judicial Commissioner of Chota Nagpore.
The Magistrate of Rungpore.
Ditto Howrah.
Presidency Magistrates, Calcutta.
The Collector of Chittagong.
Ditto Bankoora.
Ditto Sarun.
Deputy Commissioner of Julpigoree.
Ditto Manbhoom.

16. The extract from Mr. Ryland's report given in paragraph 14 above clearly demonstrates the necessity of steps being taken to prevent the Vernacular establishments in the mofussil making use of stationery issued for English offices, besides expending the allowances fixed for the purchase of their own supplies. The existing scale of allowances was sanctioned in Government of India No. 3302, dated 4th September 1871, after a considerable correspondence on the subject between the local officers, Government, and the Board, and it does not seem advisable to interfere with it unless it is shown that the object aimed at cannot be secured in any other way. The rules, however, provide for the custody and issue of stationery stores by a special ministerial officer in each office, and it seems to the Board that there need be no fear of the improper use of the stores in his charge provided he performs his duties efficiently. A further report will be called for on this subject from the Superintendent of Stationery, and Government will be informed of the conclusions arrived at by the Board.

I have the honour to be,

SIR

Your most obedient servant.

*Offg. Secretary.*

M. H. and others.—Reg. No. 5721J—56—7-11-81.

Calcutta,
*The 30th July* 1881.

W. H. RYLAND,
*Offg. Superintendent of Stationery.*

| Name of officer. | Station. | Abstract. |
|---|---|---|
| | | **ADMINISTRATION.** |
| | | No. 316Ct, dated 2nd June 1881. |
| Commissioner... | Chota Nagpore | The establishment is more than is mentioned in the indent by three clerks and a department, viz., the Wards' Department. The Vernacular Department uses the stationery also. The establishment, compared with other offices, is small, but the work is not so. |
| | | No. 1087R, dated 6th June 1881. |
| Ditto ... | Bhagulpore and Sonthal Pergunnahs Division. | The amount of work done, as shown in Board's report for 1879-80, Appendix XX, is sufficient to show that the stationery consumed is not great. |
| | | No. 85R, dated 6th June 1881. |
| Ditto ... | Patna ... | Being the largest division in Bengal, the work is much heavier in this Division than that of the most other Divisional offices. |
| | | No. 25Ct, dated 6th June 1881. |
| Ditto ... | Chittagong ... | Though the number of clerks in his office is smaller than in any other Commissioner's office, the work is not proportionately lighter than in any similar office in Bengal. |
| | | No. 325, dated 16th June 1881. |
| Ditto ... | Burdwan ... | The Division has more districts than Dacca, Presidency, and Orissa. The work is therefore heavier, and no estimate of expenditure can be made from the number of clerks. |
| | | **REVENUE.** |
| | | No. 185R, dated 5th June 1881. |
| Deputy Commissioner. | Lohardugga ... | States that there is more work in his office than in others, to account for the increased expenditure of stationery. |
| | | No. 596R, dated 31st May 1881. |
| Ditto ... | Nya Dumka ... | The amount of work done is the proper test for the consumption of stationery. Except Lohardugga and Mymensingh, his district is the largest, has seven administrative centres, six sub-divisions and forest tract. The Deputy Commissioner is the District Judge and sub-divisional officers are Sub-Judges; they are also police officers. Judicial, Revenue, Police, Special Settlement, Roads and Forests work is carried on. |
| | | No. 221, dated 31st May 1881 |
| Sub-Divisional Officer. | Jenidah ... | Establishment should be raised to fifteen. Letters, registers, and records formerly done in vernacular are now done in English. |
| | | No. 247, dated 31st May 1881. |
| Collector ... | Tipperah ... | Wants details of calculation, and questions the number of establishment quoted. |
| | | No. 206G, dated 1st June 1881. |
| Ditto ... | Rajshahye ... | The establishment should be raised to 49, which will lower the average to Rs. 5-6 per head. Supplies stationery for the half-yearly examination of Assistant and Deputy Collectors and Magistrates, and annual examination of revenue agents, and also to the ganjah supervisors. |

| Name of officer. | Station. | Abstract. |
|---|---|---|
| | | REVENUE—*concluded.* |
| | | No. 399, dated 18th June 1881. |
| Collector ... | Pubna ... | Stationery is supplied to officers both in their Criminal and Revenue Departments, and also to those of the Excise, Treasury, Land Acquisition, and Land Registration offices. Settlement work and correspondence being heavy, a great deal of stationery is consumed, more than in many large districts. During 1879-80 stationery for the license tax officers and establishments both in Pubna and Serajgunge was supplied. |
| | | No. 415G, dated 15th June 1881. |
| Ditto ... | Jessore ... | The gradual increase of work, the use of some manuscript forms for some time in place of printed forms out of stock, and the supply of the entire quantity of stationery required by the Deputy Magistrates holding their courts in the Collector's Office caused the increased consumption of stationery. There were, besides the permanent establishments, ticca clerks and apprentices who also consumed stationery. |
| | | No. 1022, dated 3rd June 1881. |
| Ditto ... | Pooree ... | The increase was owing to the Khorda settlement, |
| | | No. 180, dated 23rd June 1881. |
| Deputy Commissioner. | Darjeeling ... | The office has to supply stationery for Judicial, Revenue, and Police Departments: the cost does not seem expensive. |
| | | No. 297G, dated 24th June 1881. |
| Collector ... | Noakholly ... | The number of officers using stationery, as given in the indent for 1879-80 is 38 and not 20 as given in the statement, thus reducing the average to Rs. 6-7 instead of Rs. 12-4. |
| | | No. 938R, dated 29th June 1881. |
| Ditto ... | Patna ... | The number of men in the establishment cannot be taken as a basis for the expenditure of stationery, which depends on the amount of work done in an office. With the exception of paper, and some other sundries, all articles are supplied according to scale, so that there can be no excessive consumption with regard to them. The number of letters issued, namely 4,000, together with the requirements of six gazetted officers will account for the 8 reams 15 quires of writing paper received in 1879-80. |
| | | No. 360R, dated 17th June 1881. |
| Deputy Commissioner. | Hazareebagh... | The number of officers using stationery should be 103, lowering the average cost to Rs. 7-1. Those using kharooah bound books and Serampore paper in the vernacular department were omitted. |
| | | LAW AND JUSTICE. |
| | | No. 813, dated 31st May 1881. |
| Judge ... | Noakholly ... | There are fourteen, and not six, non-gazetted officers, thus reducing the average to 6¾. |
| | | No. 722, dated 1st June 1881. |
| Ditto ... | Backergunge... | Besides the establishment mentioned, there was an Additional Judge with two amlahs for the year. |
| | | No. 424, dated 27th May 1881. |
| Ditto ... | Hooghly ... | States that the figures are incorrect, and the establishment incorrect. |

| Name of officer. | Station. | Abstract. |
|---|---|---|
| | | LAW AND JUSTICE—*continued.* |
| | | No. 84G—S, dated 27th May 1881. |
| Cantonment Magistrate. | Dinapore ... | Wants particulars in which there is increase and detail of work in each office of his class, and states that some establishment has been omitted in his indent, while in others, officers not using stationery are included. |
| | | No. 264, dated 25th May 1881. |
| Magistrate ... | Maldah ... | States that the officers of the vernacular department not entitled to stationery are included in the establishment of other offices with which the comparison is instituted. |
| | | No. 280G, dated 25th May 1881. |
| Ditto ... | Burdwan ... | The establishment should be 29 instead of 14. |
| | | No. 717, dated 23rd May 1881. |
| Ditto ... | Gya ... | The establishment should be raised to 53, which will produce a low average. |
| | | No. 1230, dated 23rd May 1881. |
| Ditto ... | Patna ... | Urges that establishment is not the reliable criterion for the consumption of stationery, which differs more according to the amount and nature of work done, than on the establishment. |
| | | No. 1407, dated 31st May 1881. |
| Ditto ... | Shahabad ... | The consumption is more, because supplies are made to sub-divisional officers. There is much additional work done for emigration, and recruiting of soldiers and their verifications. The establishment, too, should be 46 and not 40. |
| | | No. 612, dated 27th May 1881. |
| Ditto ... | Durbhunga ... | The establishment should be 45 instead of 34. |
| | | No. 1068, dated 18th June 1881. |
| Ditto ... | Tipperah ... | Stationery from the Magistrate's office is supplied to the sub-divisional officers, and to the Deputy Magistrates in the head-quarters, and considerable quantities of paper and bound books are supplied to the Education Department; besides, since 1878, the zillah school has been supplied with stationery. |
| | | No. 255, dated 14th June 1881. |
| Judge ... | Nuddea ... | The number of officers using stationery is nine, and not five as shown in the statement. Besides, the outturn of work was unusually large. The increased consumption is also attributable to the inferior quality of stationery, such as rough paper-envelopes, badly gummed pencils with greasy chalk; bad goose quills, nibs, ink, blotting paper, and the writing-paper, which is of a very perishable character. |
| | | No. 497, dated 15th June 1881. |
| Magistrate ... | Pubna ... | The stationery is supplied to the Deputy Magistrates and Deputy Collectors at Sudder for Fouzdari work, and also for Revenue work in general, with the exception of the Treasury, the Land Registration and the Excise Department. Besides, the District Superintendent, and the Assistant Superintendent of Police at Serajgunge, and the Sub-divisional officer at Serajgunge, the Head Master of the Government school, the Deputy Inspector, and the Sub-Inspectors of Schools, are all entirely supplied from the Magistrate's office. More draft royal and medium paper and blank books were required in the subordinate offices, and not only for English work but also for vernacular work, the monthly allowance for country stationery being insufficient. |

| Name of officer. | Station. | Abstract. |
|---|---|---|
| | | **LAW AND JUSTICE—*continued.*** |
| | | No. 2106, dated 24th June 1881. |
| Magistrate ... | Bhagulpore ... | The number of men in the establishment has been much underestimated in the indent. Several officers who use stationery were omitted from it. |
| | | No. 1249, dated 28th May 1881. |
| Ditto ... | Mymensingh... | Mymensingh is the largest district in Bengal, and as such the work in the district is proportionately heavier than that in any other district. Besides, as this district is an out-of-the-way place far from Calcutta, having no easy communication with it, several articles of stationery required for the Bengali Sherista are not procurable here, consequently it is necessary to supply the mohurirs with English stationery, although prohibited by the rules. |
| | | No. 249, dated 9th July 1881. |
| District Judge... | Chittagong ... | Certain articles not required previously were for the first time indented for. Besides, stationery was used by two Judges, whereas, in other districts there was one only, and moreover the establishment should be 13 instead of 12 as shewn in the statement, to which one extra clerk for six months was added. There were also two apprentices and a comparing clerk using stationery. |
| | | No. 1640, dated 11th July 1881. |
| Magistrate ... | Dacca ... | The increase may be assigned to a Deputy Magistrate having been located during 1879-80 in Naraingunge; to the rise of correspondence in the offices of the Deputy Inspectors and Sub-Inspectors owing to the introduction of the sub-centre system of examination, and to the supply of stationery to two extra officers and Assistant Superintendent and municipal clerk. |
| | | No. 1101, dated 18th July 1881. |
| Ditto ... | Faridpur ... | The cause of increase has not been explained. |
| | | No. 928, dated 31st May 1881. |
| Executive Engineer, Circle and Eastern Canals Division. | Calcutta ... | The high cost of stationery supplied during 1879-80, was entirely due to the large number of heavy projects prepared in that division. |
| | | No. 2235, dated 9th June 1881. |
| Executive Engineer, 1st Canal Division. | Ditto ... | The work is far greater than in any other of the Public Works offices, and its outlay is far greater too. It does the agency work also, for all the other divisions in Bengal, and during the year in question had not only the workshops, but the despatch of consignments from the Secretary of State to up-country. |
| | | No. 1009, dated 24th June 1881. |
| Executive Engineer, Dehree. | Workshops Division Dehree. | As no country stationery is used by the mohurirs, moonshees, and tallymen of this large establishment, the expenditure is great. Besides the transfer of the Head Works sub-division of the Arrah division to this office caused an increase also. |
| | | No. 1186, dated 30th June 1881. |
| Executive Engineer, 2nd Calcutta Division. | Calcutta ... | The increase in the expenditure of stationery is principally due to the use of some expensive drawing materials, considerable quantities of which were required during the year, and also to the liquidation of former loans of foolscap paper and goose quills. |

| Name of officer | Station. | Abstract. |
|---|---|---|
| | | **LAW AND JUSTICE—*concluded*.** |
| | | **No. 2547, dated 30th May 1881.** |
| Executive Engineer, Gunduck Division. | Mozufferpore... | The increased consumption of stationery is owing to the increase of correspondence, accounts, and returns, on account of Tuccavee Works. |
| | | **No. 1300, dated 1st June 1881.** |
| Superintending Engineer, Orissa Circle. | Cuttack ... | A fair comparison as to average cost of consumption of stationery cannot be instituted between his office and the group of offices selected, for the reason that a better quality and description of stationery is used in his office which is an administrative office. |
| | | **REGISTRATION.** |
| | | **No. 166, dated 25th May 1881.** |
| Registrar ... | Durbhunga ... | There was a very large office established at Narabya for registration of pattahs and kabuliyats at the instance of the Raj Durbhunga. The presentations were in such an abundance, that the office was given in charge of two sub-registrars with about 50 extra copyists. |
| | | **No. 580, dated 28th May 1881.** |
| Ditto ... | Tipperah ... | Unable to ascertain the particular cause of increased consumption, except that the offices in which the average is less might have had stock of previous years in store, and further the eight rural sub-registrars are not included among the gazetted officers, which, if done, the total number would come to 22 instead of 13. |
| | | **No. 560, dated 27th May 1881.** |
| Ditto ... | Noakholly ... | There were 20 gazetted officers and 34 non-gazetted officers. The expenditure would have been still less if materials for book-binding had not been required there in larger quantity than elsewhere on account of dampness of the climate. |
| | | **No. 134, dated 28th May 1881.** |
| Ditto ... | Mozufferpore... | The number of non-gazetted officers was 20 (including the registered apprentices), and not four as given in the statement, and being added to the seven gazetted officers the total number would come to 27. |
| | | **No. 618, dated 4th June 1881.** |
| Ditto ... | Midnapore ... | The number of officers (including both the gazetted and non-gazetted officers) was 49, instead of four gazetted, and eleven non-gazetted officers, as mentioned in the statement. |
| | | **No. 302, dated 11th June 1881.** |
| Ditto ... | Patna ... | The establishment should be ten, and not seven, as mentioned in the indent. The amount of work, viz., memorandum and copies, was, with exception of Backergunge, the largest in Bengal. |
| | | **No. 473, dated 5th July 1881.** |
| Ditto ... | Mymensingh... | The establishment shown should be 32 instead of 22, and the average will consequently come down to Rs. 4-7 from Rs. 6-8. |
| | | **No. 214, dated 25th May 1881.** |
| Opium Agent... | Behar ... | States that of the value, Rs. 937-4, of stationery shown in the statement, Rs. 735 was for the lithographic press, for which there is a monthly allowance of Rs. 100. |

W. H. RYLAND,

*Offg. Superintendent.*

*The 30th July 1881.*

N. T. W.—Reg. No. 4740J—56—7-11-81.
